*Croman faculty and staff wore purple on April 19th in support of our military children.*

Purple Up! Day is an opportunity for our schools to visibly show our support and thank our military children for their strength and sacrifice. We know that military children will move, on average, six to nine times during a school career. Although it's not easy, they are able to adapt to change. They have a level of kindness and compassion that shines through whenever they are in a room.

It was an honor to show our support to our military families, thank you to all of you for your families service.
