***\*\* Please be sure to bring the child with you.***

## **A Note from Principal Mr. Wilcox**

As we thaw from that long stretch of cold weather, we have some exciting news to share with you here at

W.R. Croman that will warm your heart. We held another amazing P.B.I.S. "mystery motivator" reveal and celebration. The students and I were lucky enough to enjoy some sledding for their hard work and demonstrating proper behavior. We all had some good laughs, rolls, and even one or two spills.

On February 22, we handed out over 3,021 items from our Krispy Kreme PTO fundraiser! We cannot thank the students, parents, and community enough for their continued support. One hundred percent of the profit generated, go back to the students of W.R. Croman!

The second Trimester will wrap up March 8th, this marking 120 days of the school year! Oh, how the year is flying by for our students. All standards base achievement will be updated and ready for parental/guardian(s) viewing on MasteryConnect Monday, **March 14th.**

# 100th Day of School

## PBIS Sledding Day

Congratulations to the students that earned a day of sledding with Mr. Wilcox for putting on their Trojan Armor.

Fun in the Snow

### A Note from the Nurse... - It's Dental Health Month

Dental health is a very important part of overall health. If you find it hard to get your child to stick to a good oral hygiene routine, here are 5 tips to help them get into a new habit.

**BRUSH FIRST THING** - Encourage them to brush as soon as they get up in the morning. This helps remove the bacteria that has built up through the night and a fresh mouth is a nice start to the day.

**SET A TIMER**—Many kids brush but just don't do it long enough. Setting a timer for 2 minutes to remind kids how long they need to brush to remove the plaque and bacteria is best.

**BRUSH THAT TONGUE TOO**—The tongue can also harbor plaque and bacteria so teach kids to gently brush their tongue to finish up their brushing routine.

**AVOID SODA AND SUGARY DRINKS**—Sugary drinks can coat the teeth and cause increased tooth decay.

**CRUNCH ON FRUITS & VEGGIES**—We all know how important fruits and vegetables are to a healthy diet, but did you also know they play an important role in dental health? Choosing crunchy fruits and vegetables help promote saliva production which is a natural mouthwash.

Dribble, dribble, shoot! About 80 kids participated in the K-2 Basketball program on Saturday mornings in January this year. The weather was frigid, but these kids came each week to learn the basic skills of dribbling, passing, defense, and shooting. It was a fun four weeks of hoops!

### February Student of the Month

**Kindergarten:** Olivia M., Sawyer H., Peyton B., Briara P., Colton P., Lee B.

**First Grade:** Allison H., Silas M., Damien N., Willow R., Jase S.

**Second Grade:** Lillith H., Hailey M., Zoey S., Letti H., Reagan C., Trevor M.
