KINDERGARTEN REGISTRATION FOR 2022-2023 SCHOOL YEAR

It is that time of year again. If you or your friends have a child who will be entering kindergarten in the Fall of 2022 the important information is listed below.

Registration will be held on March 23 and 24, 2022 at the W.R. Croman Primary School.

Please go to the Troy School District Website to print the forms (Central Registration) or stop in the W.R. Croman Office to pick up a registration packet.

Please bring the following:

Official birth certificate (child must be 5 years of age on or before August 31, 2022). Immunization record, pertinent custody/visitation papers, and proof of residency (tax bill or utility bill).

Please be sure to bring the child with you.

LOST AND FOUND OVERLOAD

If your child is missing hats, gloves, coats, boots, etc. please stop into the office to check out the Lost and Found; our box is very full of unclaimed items.

Classroom teachers often have a classroom lost and found box.

Drop your child's teacher a note asking them to look in their box for the missing items. It is amazing the number of unclaimed items that are left at school.

A Note from Principal Mr. Wilcox

The students have been behaving amazingly and we are so happy with their effort in the classroom. Here at W.R. Croman, we just wrapped up our second round of diagnostic testing in I-Ready Math and Acadience.

I do want to remind everyone with the winter season upon us that if your child is sick, please keep them at home. We do ask for a written excuse when they return or a doctor's note. If a child is over 10 days of total absences, a doctor's note will be required. If you have nay questions, please feel free to reach me at 570-297-3145.

What's Happening at Croman...

Santa
handing out
presents to
Mrs. Berdine's
2nd Grade class

This months PBIS program award was lunch with Mr. Wilcox. The students got to watch cartoons and eat Vinnie's pizza as a reward for putting on their Trojan Armor and being

respectful and responsible. Congratulations

FUN IN THE SNOW!

A Note from the Nurse...

Keeping Kids Active in the Winter

January & February tend to be our coldest months here in Northern Pennsylvania making it a challenge to keep kids active when it is often too cold to play outside. Physical activity is a key element for kids' physical and mental health. Here are some tips to help keep them active during even the coldest months of the year.

- 1) Take advantage of those days it gets above 20 degrees and get outside. Building a snowman, go on a "winter wonderland" hike, or try out skiing or snowboarding.
- 2) Encourage inside activity by turning on some music and having a dance competition. If dance isn't your thing, try building a blanket fort or pick out an interactive video game to play together.
- 3) Go to a skating rink. Whether you prefer ice skating or roller skating, both are excellent activities that everyone in the family can enjoy together.
- 4) Go Bowling. Another fun family outing that gets everyone off the couch for a few hours.

In 2nd Grade Music class, students are developing steady beat and performance skills, and building hand-eye coordination through playing percussion instruments and reading iconic musical notation. The latest instrument introduced in class was the crash cymbals and a few students have gotten the chance to try them out!
