A NOTE FROM THE NURSE

School is back in full swing, and the kids are bringing home all sorts of things. Homework, artwork, permission slips, some wild stories and.....*GERMS!* While most of what they bring home is a welcome part of the school year, germs are never included on that list. We all know that if there is one thing kids are really good at, it is spreading those germs. Fortunately, there are some simple hygiene practices we can teach kids to do that can make a significant difference.

Proper and frequent handwashing being the most important.

Catching sneezes and coughs in the elbow.

Use a tissue to wipe their noses followed by washing or sanitizing their hands.

Remind them not to share cups or water bottles with others.

W. R. Croman Primary School Clothing Guidelines

Living in Northeastern Pennsylvania we must be able to adapt to the frequent weather changes as needed. To alleviate some of the guessing of “what do I need to wear” we have developed a recommended clothing chart. We care about your child’s health, but also know that activity outdoors is vital for a healthy lifestyle. Please watch/listen to local weather reports so that you can help dress yourself/children accordingly.
